

In 2009, the Virginia General Assembly established the Breast and Cervical Cancer Prevention and Treatment Fund. Contributions to this fund will help pay medical treatment costs for uninsured women who have been diagnosed with breast or cervical cancer. Without help from financial donors, these women face potential financial devastation since medical treatment costs for breast and cervical cancer can reach up to \$40,000.

If you would like to make a donation, please send it to the following address:
